Profile

Skilled Software Development Engineer in Test (SDET) with 6+ years of experience in automation testing, including Selenium WebDriver, Java, Python, and C#. Expertise in API testing, CI/CD integration, and Agile methodologies.

Strong background in backend testing, SQL databases, and test automation frameworks.

Technical Skills

- Programming Languages: Java, Python, C#, JavaScript, SQL

- Testing Frameworks: Selenium WebDriver, TestNG, JUnit, Cypress, Appium, Robot Framework

- API Testing: Postman, Rest Assured, SoapUI, Swagger

- CI/CD & DevOps: Jenkins, GitHub Actions, Azure DevOps, Docker, Kubernetes

- Test Management: JIRA, TestRail, Xray, Zephyr

- Methodologies: Agile, Scrum, Sprint Planning, Stand-ups, Retrospective

Professional Experience

Software Development Engineer in Test II | WEX Health | Remote | April 2022 - Present

- Developed and automated test scripts using C# and NUnit, increasing test coverage by 35%.

- Created integration, unit, and functional tests, reducing production bugs by 30%.

- Collaborated with cross-functional teams to ensure test cases align with business requirements.

- Implemented API test automation using Rest Assured and Postman for robust API validation.

- Integrated test automation with CI/CD pipelines in Azure DevOps.

QA Automation Engineer | P97 Networks | Houston, TX | Jan 2020 - Jan 2022

- Performed manual and automated testing for mobile applications, ensuring cross-platform stability.

- Designed and executed automated test cases in Selenium and Java, improving test efficiency by 40%.

- Developed data-driven test automation using Cucumber and TestNG.

- Used Git and Jira for version control and project tracking.

- Participated in Agile Scrum ceremonies including Sprint Planning and Stand-ups.

Software Development Engineer in Test | VyTrack | McLean, VA | Oct 2018 - Dec 2019

- Automated regression, smoke, and functional tests using Selenium and TestNG.

- Implemented Page Object Model (POM) design pattern for test automation efficiency.

- Executed API testing using Postman and Rest Assured.

- Used Git and Maven for version control and build automation.

- Documented test cases and bug reports in Jira.

Test Automation Engineer | BookIT | McLean, VA | April 2018 - Oct 2018

- Developed and executed automated UI tests using Selenium WebDriver.

- Created detailed test reports with automated screenshots.

- Performed API testing using Postman and Rest Assured.

- Collaborated in Agile Scrum teams, participating in daily stand-ups and sprint reviews.
